OBJECTIVES

- Motivated engineering graduate seeking an entry-level software developer position to apply strong technical knowledge in **Java**, **SQL**, and **Web Development**, along with effective problem-solving and communication skills.

PROJECTS

- **FarmEasy (Farmers Management)**: Designed and developed an e-commerce platform tailored for farmers using **HTML, CSS, and JavaScript.**
- **Expensy (The Expense Tracker App)**: Developed an expense tracker application to help users manage finances by **recording, categorizing, and analyzing daily expenditures.** Built using **React, JavaScript, HTML, and SQL.**
- **Traffic sign Recognition and Voice Generation**: Developed a **Support Vector Machine (SVM)** based traffic sign detection system with weather resilience.

INTERNSHIP

- **Java Developer Intern (Feb 2025 - May 2025)**
  - TechCiti Software Consulting, Bangalore
  - Developed Java-based modules using JSP and servlets
  - Applied OOP principles in real-time business logic

EDUCATION

- **B.E. in Computer Science and Engineering (2025)**

  Canara Engineering College, Mangalore   CGPA: 8.31

SKILLS

- **Database: Oracle SQL**
  - Proficient in writing SQL queries and performing CRUD operations on RDBMS.
  - Skilled in Joins, Subqueries, Grouping, Pseudo Columns, and SQL functions.
  - Hands-on experience with **MS-SQL**, **MySQL**, Oracle, normalization, and SQL statements.
- **Programming: Java**
  - Strong understanding of Core Java Concepts.
  - Good grasp of OOP concepts.
  - Capable of implementing basic Java programs.
- **Web: HTML, CSS, JavaScript**
  - Proficient in front-end technologies.
  - Capable of building responsive, user-friendly web interfaces.
- **Tools:** Git, VS Code, Eclipse

CERTIFICATES

- **Web Development** – Coursera
- **Java Programming** – Spoken Tutorial, IIT Bombay
